

Joseph Alexander Binns

Physics-Oriented Gameplay Programmer

Exploring tactile play in Unity and Unreal Engine 5, supported by a degree in Theoretical Physics and practice in computational research.

Employment

Gameplay Programmer @ Neat Corp

Intermediate · Nov 2025 — Mar 2026

Junior · May 2024 — Nov 2025

Intern · Oct 2023 — May 2024 · Stockholm, SE

Ported Garden of the Sea from VR to PC and Nintendo Switch. Developed and shipped the online VR fighter Crossings (PC, Meta).

Study Support Mentor @ Lund University

Mar 2021 — Jun 2022 · Lund, SE

Guided one-to-one tailored mentoring for BSc students at the Department of Physics.

Unity Developer Summer Intern @ MLabs

Jul 2019 — Aug 2019 · London, UK

Built an urban environment simulation, for use by an automated transport planning system.

Education

MSc Computational Physics @ Lund University

Aug 2026 — Jun 2028 · Lund, SE

YH Game Programmer @ Futuregames

Aug 2022 — May 2024 · Stockholm, SE

A collaborative, cross-disciplinary education with intense full-cycle game projects.

BSc Theoretical Physics @ Lund University

Aug 2019 — Jun 2022 · Lund, SE

Thesis explores [Combined Regularisation Techniques for Artificial Neural Networks](#).
